Total	387

COURSE OF INSTRUCTION.

Approved by the State Authorities.

This comprises the branches usually taught in common schools, together with such other branches as are required to prepare teachers for higher grades of schools.

PREPARATORY COURSE.

Many students enter the school quite deficient in the Elementary branches, hence the necessity of the Preparatory Course.—This Course embraces Orthography, Reading, Writing and Drawing, Mental and Written Arithmetic (*Greenleaf* and *Robinson*,) Elements of Geography, Grammar, Composition and Vocal Music.

ELEMENTARY COURSE.

Students with a fair knowledge of the branches named in the Preparatory Course, can graduate in two years. The studies of this Course are as follows:

Junior Year.

1st Term.—A thorough review of the branches of the Preparatory course with reference to teaching them. Theory of Teaching commenced.

2d Term.—Elementary Algebra, *Greenleaf or Robinson*, Book-keeping, *Potter & Hammond;* History of United States, *Lossing;* Composition, *Quackenbos;* Reading and Spelling.

3d Term.—Elementary Algebra completed; Botany, *Gray's* (Lessons and Manual); Composition, *Quackenbos;* Reading and Spelling.

Senior Year.

1st Term.—Geometry commenced, *Greenleaf;* Natural Philosophy, *Wells;* Rhetoric, *Quackenbos;* Theory of Teaching, Reading and Spelling.

2d Term.—Geometry, (6 Books) completed, *Greenleaf;* Natural Philosophy completed, *Wells;* Geography, *Shaw and Allen;* Theory of Teaching; Practice teaching in Model School; Etymology.

3d Term.—Rhetoric, *Quackenbos*, completed; read Mental Philosophy, *Haven;* read Moral Philosophy, *Wayland, last Ed.;* Constitution of United States, *Sheppard;* Physiology, *Hitchcock;* Teaching in Model School.

SCIENTIFIC COURSE.

Junior Year.

Having completed the studies of the Elementary Course, or their equivalents, students can enter this Course and graduate in two years. The studies are as follows:

1st Term.—Higher Algebra, *Robinson;* Geology, *Dana*; Zoology, *Agassiz.*

2d Term.—Higher Algebra, *Robinson;* Chemistry, *Youmans;* Modern History, *Lord.*

3d Term.—Trigonometry and Surveying, *Greenleaf and Robinson;* Chemistry, *Youmans;* General History, *Wilson.*

Senior Year.

1st Term.—Analytical Geometry, *Robinson;* Astronomy, *Robinson;* English Literature, *Shaw.*

2d Term.—Analytical Geometry, *Robinson;* Astronomy, *Robinson;* Mental Philosophy, *Haven.*

3d Term.—Differential and Integral Calculus, *Robinson;* Mechanics, *Peck;* Moral Philosophy, *Wayland;* Logic, *Coppee.*

CLASSICAL COURSE.

Preparatory Course.

FIRST YEAR.

1st Term—Latin Grammar, *Harkness;* Latin Reader, *Harkness.*
2d Term.—Latin Grammar continued; Latin Reader continued.
3d Term.—Cæsar commenced, *Andrews;* Review of Studies of Year.

SECOND YEAR.

1st Term.—Cæsar, (3 books,) *Andrews;* Greek Grammar, *Hadley;* Greek Lessons, *Whiton.*

2d Term.—Virgil commenced, *Frieze;* Greek Grammar and Lessons continued.

3d Term.—Virgil completed, (5 books,) *Frieze;* Anabasis, (6 chapters 1st book,) *Boise.*

The English studies of the Preparatory, and first year of Elementary (English Course,) are included in the Classical Preparatory Course.

Freshman Year.

1st Term.—Cicero's Select Orations, *Folsom;* Anabasis, *Boise;* Latin Synonyms, *Doderlein;* Hadley's Greek Grammar.

2d Term.—Cicero's Orations completed, (6) Anabasis completed, (3 books.)

3d Term.—Sallust, *Andrews;* Homer's Iliad, (1st book,) *Anthon.*

The English studies of Senior Year in the Elementary Course are included in this year.

Sophomore Year.

1st Term.—Livy, (2 books,) *Lincoln;* Heroditus, *Felton;* Latin Prose Composition; Greek Prose Composition.

2d Term.—Horace, (Odes,) *Lincoln;* Greek Tragedies.

3d Term.—Horace, (Satires,) *Lincoln;* Cicero de Senectute, *Dillaway;* Demosthenes' Select Orations, *Champlin.*

The English studies of first year Scientific Course are included in Sophomore Year of Classical Course.

Junior Year.

1st Term.—Germania and Agricola, *Tyler;* Plato's Crito and Apology.

2d Term.—Histories of Tacitus, *Tyler;* Memorabilia of Socrates, *Robbins.*

3d Term.—Cicero De Imortalitate, *Dillaway;* Odyssey, *Owen.*

The English Studies of Senior Year in Scientific Course are included in Junior Year of Classical Course.

Senior Year.

1st Term.—Astromomy, *Robinson;* Political Economy, *Wayland;* Paley's Evidences of Christianity.

2d Term.—Law of Nations, *Vattel;* Class Discussions; Greek Testament; Butler's Analogy.

3d Term.—Butler's Analogy; Science of Language, *Muller;* General Topics in History; History of Civilization, *Guizot.*

CLASSES.

Classes are formed in the school outside of the regular course somewhat according to the wants of students; but classes beginning with the school year, usually continue from one term to another without any change.

It is recommended that those purposing to graduate in the Elementary or Scientific course should pursue Latin or the Modern Languages at least one year.

The books used in German have been Woodbury's Method, Soden's Reader, Works of Faust, and others.

In French, Fasquelle's French Course, French Reader, French Dialogues, Corrinne, Piccola. The course embraces more in Modern Languages.

It is very desirable to form all classes in the Languages the first term of the school year, and that those commencing any language should continue at least one year.

The Normal School Law makes the following provisions for examinations:

"Examinations for graduation shall be made in each Normal School by not less than three nor more than five principals of the schools recognized under this act, who shall annually be designated for that purpose by the State Superintendent of Common Schools, and assemble in each school at a time to be designated by him; and said annual examination shall take place in the presence of the Superintendents of all the counties embraced in the proper Normal School District."

The law passed at the last session of the Legislature, provides that instead of the sums heretofore given, $10,000 shall be appropriated to the (three) Normal Schools for the ensuing year for the education of Teachers in those Institutions; the amount to which each school shall be entitled to be determined as follows:

"For each student over seventeen years of age, who shall pledge himself to teach in the Public Schools, fifty cents per week; for each student who was disabled in the military or naval service, or whose father lost his life in the service and who shall pledge himself as above, one dollar per week; and to each graduate who shall pledge himself to teach for two years, fifty dollars in addition to the above, at the time of graduation.

MODEL SCHOOL.

This department of the Normal School has recently been added, in its present form. A suitable building has been finished and furnished, surpassing in appearance and convenience any other school building in the county. The school is now graded, and in successful operation. The teaching is mainly done by the Graduating Class of the Normal School, under the constant supervision of the Principal of the Model Department. Special attention is given to Object Lessons, Drawing and Vocal Music.

A limited number of pupils can be received from abroad. Expenses in Model School, $5 per term.

DIPLOMAS.

A student graduating in the Elementary Course, will receive a Diploma, in which will be named the branches he has studied, and by which he will be constituted BACHELOR OF THE ELEMENTS; the Diplomas of those graduating in the Scientific and Classical Courses, will enumerate the distinctive branches of these Courses, and constitute their holders, respectively, BACHELORS OF THE SCIENCES, and BACHELORS OF THE CLASSICS.

Regular graduates who have continued their studies for two years, who have practiced their profession during two full, annual terms in the Common Schools of the State, and who have presented to the Faculty and Board of Examiners, a certificate of good moral character and skill in the art of teaching from the Board, or Boards of Directors, in whose employment they have taught, countersigned by the proper County Superintendent, may receive second Diplomas, constituting them MASTERS in the several studies embraced in the courses in which they graduated, and conferring upon them corresponding professional degrees, as follows:

TEACHER OF ELEMENTARY DIDACTICS.
TEACHER OF SCIENTIFIC DIDACTICS.
TEACHER OF CLASSICAL DIDACTICS.

The Normal School law makes it the duty of the authorities of the Normal Schools to grant Diplomas or State Certificates to Actual Teachers in Common Schools, without their having attended the Normal Schools as students. The following are the conditions upon which these Diplomas will be granted:

1. All applicants must be twenty-one years of age.

2. They must have taught in Common Schools during three full annual terms.

3. They must present similar certificates, in regard to moral character and skill in practical teaching to those presented to the regular graduates, and have them signed by the same school officers.

4. They must be examined in all the branches they desire named in their Diplomas; and these examinations must be at the time of the annual examinations at the schools where application is made.

5. A Thesis on some professional subject will be required as a part of the examination.

The Diplomas, granted in accordance with these conditions, will contain an enumeration of the branches of study in which the holder was found proficient, and confer upon him the professional degree to which the extent of his knowledge may entitle him.

All the Diplomas are authorized and furnished by the State, and exempt those who hold them from any further examination by authorities acting under the provisions of our Common School laws.

LOCATION.

Mansfield is a borough of some three hundred inhabitants, situate on the Corning and Blossburg Railroad, thirty miles from the former place. It is easy of access from all points. From the southern part of the State by the Philadelphia and Elmira Railroad, to Troy; from which place a daily line of stages runs over the remaining distance of sixteen miles. Or by going through Elmira, the whole distance may be traveled by railroad. The difference in time and expense is slight. In either case students leaving Philadelphia in the morning arrive here at 10:30 A. M., of the next day, stopping over night at Troy or Corning. Expenses through, about ten dollars.

The surrounding country is scarcely surpassed in the beauty of its scenery, and the quiet "Valley of the Tioga" presents an inexhaustible fund of knowledge in its Botanical and Geological resources.

BUILDINGS AND FIXTURES.

The building is of brick, one hundred and fifty feet in length, by fifty feet in width. The main building is five and the wings four stories high, including the story of sky-lights. The rooms for students are large, with extra height of ceiling, and white-washed or papered.

The building in its arrangement possesses conveniences and comforts seldom found.

The grounds about the building have been somewhat extensively ornamented with trees and shrubbery during the past two years.

The cost of the buildings and grounds is about thirty-six thousand dollars.

The building is now furnished with furniture of the most approved style, together with an extensive collection of Maps, Charts, and works of reference. The Chemical and Philosophical apparatus, which is now quite large, will receive additions, such as may be needed to make it all that could be desired in an institution of this character.

Through the liberality of Judge T. Dyer of Covington, the Institution is now in possession of a fine Mineralogical and Geological Cabinet.

To keep pace with the improvements in education, a Gymnasium has been erected. A valuable apparatus for the heavier and lighter exercise has already been secured.

REGULATIONS.

Students on entering will register their names, and pay one-half of the tuition and board for the term, and the whole of the room rent.

This Normal School is intended to be a self-governing institution. The persons to whom it claims to offer decided advantages, must of necessity be those who well understand what is requisite

in order that the largest return may be received by them for their outlay of time and money. If any, through inadvertency, should give evidence that they had mistaken the school in this respect, there would be no hesitancy in granting them a perpetual furlough.

Students can enter at any time, provided they remain at least a full term, though it is earnestly recommended that they commence with the opening of the terms.

Expenses Per Term of 14 Weeks.

For Fall or Spring Term, including Board, Room Rent, Tuition, Book Rent, Fuel and Washing.	$58 00
For Winter Term,	60 00
For Day Students, Tuition per Term,	8 00
Book Rent per Term,	1 00
Total Expenses for a School year,	176 00

No Extra Charges.

Student's rooms are furnished with Stoves, Chairs. Tables, Stands, Pails, Bedsteads, Mattresses, Pillows and Comforters. All other things needed for comfort and convenience must be furnished by those occupying rooms. All articles of bedding and clothing should be distinctly marked with full name.

MUSICAL DEPARTMENT.

This department is under the direction of an able and experienced Professor and is a prominent feature in the Institution.

EXPENSES.—Piano, Organ, Thorough Bass, Composition, each, $10 per twenty four lessons; Cultivation of Voice, four lessons each week, C. Bassini's method, $1 per week. Instruction books furnished free of charge.

SOCIETIES.

There are two Literary Societies, the "Normal Literary" and "Philomathian," connected with the institution, which hold weekly meetings. The nucleus for a Library has been commenced in each. Nearly all the students are members of one or the other.

The "Philharmonic" meets for instruction in Vocal Music weekly, and is under the charge of the Professor of Music. A Concert is usually given by the Societiy once each Term.

Public Sessions are held by the Literary Societies once a year.

GENERAL REMARKS.

This Institution is established upon a permanent basis. The difficulties with which it has had to contend, and the obstacles it has had to overcome, have sufficiently developed its capabilities and powers, to warrant, under more favorable circumstances, a far brighter future. The appropriations from the State, amounting to $15,000, have not only enabled the Trustees to complete the building and grounds, so as to fill to the letter the representation given in the cut, but to extinguish the greater part of its outstanding liabilities.

The boarding hall is so arranged that students are grouped in families of ten or twelve at the tables. This grouping is made with distinct reference to the cultivation of social habits, and the rules and usages of good society. Each table has an equal number of each sex alternately seated around it. By this arrangement, very many of those rude and unrefined habits so often met with in boarding halls are done away with, and better ones substituted.

As in the home circle the association of brother and sister is beneficial, so in the school room the co-education of ladies and gentlemen is deemed mutually beneficial; and we have invariably found, that the good sense of both, when under proper restraint and regulation, has developed a social intercourse which has been productive of a greater growth in mental and moral culture. The sexes when together are always under the supervision of teachers.

The three churches of the place furnish opportunities for religious worship on the Sabbath, and each student is required to attend some place of worship at least once during the Sabbath, unless for special reasons he may be excused. Among the other religious privileges of the school, are the Sabbath Morning Bible Class, and Sabbath Evening Prayer meeting. Students are cordially invited to attend them. Much good, it is hoped, has been done the past year in these exercises.

NORMAL SCHOOL REGISTER.

STATE NORMAL SCHOOLS.

STATE.	LOCATION.	NAME OF PRINCIPAL.
California,	San Francisco,	GEORGE W. MINNS.
